

Bubble Wrap Paint

Supplies:

Tape

Construction Paper

Bubble Wrap

Washable Paint

Instructions:

Tape several sheets of paper to the floor.

Squirt paint all over them.

Tape the bubble wrap on top of the paper & paint.

Let the kids go nuts! They can push toys (cars, etc) on it as well.

Objectives:

This activity is beneficial for gross motor skills, cognitive development (cause and affect), and sensory play.

You can use it for toddlers. They can walk on it or pop the bubble wrap with their hands.

It can also be used for babies during tummy time – lay on the bubble wrap or crawl around on it and smash the bubble wrap/paint.
